

## Tablet Member to Member Transfers – Code Creation

A Member to Member (M2M) Code is a unique identifier used to securely receive transfers without sharing sensitive account details.

### Member to Member Code Creation Step-by-Step

Use the following steps to create a Member to Member Code.

Step	Action
1	Tap the <b>Make a Transfer</b> menu at the top of the screen.
2	Tap the <b>Member to Member Accounts</b> hyperlink at the left of the screen.
3	Tap the <b>Create Code</b> hyperlink at the top of the screen.
4	Tap the <b>Select Account</b> drop-down arrow and choose the <b>Account</b> to which you want to allow transfers.
5	Optional: Tap the <b>Copy</b> hyperlink to copy the code.
6	Tap the <b>Save Code</b> button.
7	A confirmation message appears at the bottom right to confirm a code was created.
8	Optional: Scroll down to <b>My M2M Codes</b> at the bottom of the screen to view all the codes you've generated.
9	Optional: To delete a code, click the <b>Delete</b> hyperlink to the right of any code.
